5th May 2021

Dear Parents and Carers,

At Coates Primary School, we follow a Mastery approach in mathematics. We use the resources and schemes of work from White Rose Maths. As part of their support, White Rose have created some Parent Guidance Videos on how to tackle some of the new skills, approaches, methods and resources when teaching a mastery approach. These resources are to support Parents/Carers with maths at home.

White Rose have created 7 (so far) mini clips with TV presenter Michael Underwood to break down key areas in mathematics; modelling how to use resources and methods the children use at school. Each video is between five and six minutes long. The topics covered are:

- How has maths changed
- Place value
- Subtraction
- Multiplication
- Division
- Fractions
- Algebra

They are a fantastic resource that has been developed free of charge. The links to the Parent Guide webpage will be located on our school website, along with the PDF versions of the guidance. The guidance includes photos, and models on how to tackle some of these areas in mathematics. The guidance also includes some pictorial models such as: part whole models, tens frames, place value charts, place value counters and bar models to use at home.

If you need a print out of these guides, please notify your class teacher who will be able to assist you.

Please take a look at this fabulous resource available to our school and hopefully it supports you and your child in the maths journey at Coates.

Yours sincerely,

Mrs D Lilley
Maths and EYFS Leader

Together we dream, believe and achieve!
